

K Dock Restroom Renovation

Type: Other Infrastructure Status: ● Design

PROJECT LOCATION

K-Dock, Berkeley Marina

WHAT'S HAPPENING

This is a [Measure T1](#) Phase 2 project.

The restroom at K-Dock is a highly used and conveniently located public restroom at the hub of the Marina. It serves Marina Office visitors, slip holders and Marina guests, and dock users accessing the charter fishing and small-scale ferry boats at the popular K-Dock, particularly during fishing season.

This project will enhance security, improve the interior space of the restroom with new energy and water efficient fixtures while meeting the latest American with Disability Act (ADA) standards. The renovated restroom will make Marina visitors feel comfortable visiting K-Dock and other nearby attractions at the Marina.

The K-Dock Restroom Renovation Project will create an all gender restroom open to public and another separate all gender restroom for City of Berkeley Marina slip holders. Both restrooms will have multiple self-contained fully wall-enclosed single occupant bathroom stalls. The new slip holder restroom will have an all gender single occupant ADA accessible bathroom and shower and two fully wall-enclosed single occupant bathroom stalls. New mechanical ventilation will be installed. A new water bottle filling station will be installed on the exterior as well as new security upgrades.

The K-Dock Restroom Renovation Project is completing the design phase with comments received from the first round of City of Berkeley Building Permit Review. A community outreach meeting was held in 2024. The K-Dock Restroom Renovation Project is anticipated to start Construction Mid-2025.
