Learn where natural gas pipelines are located

PG&E monitors our natural gas system status in real time on a 24-hour basis. We regularly conduct leak inspections, surveys and patrols of all of our natural gas transmission pipelines. We immediately address any issues that are identified as threats to public safety.

PLEASE NOTE: Gas transmission pipeline data is provided by the PG&E Geographic Information System. Street map info is provided by Esri®. PG&E is providing this map as a courtesy and for general information purposes only. The map does not represent that the information contained herein is accurate for any particular purpose, and therefore disclaims all warranties, expressed or implied, including the warranty of fitness for a particular purpose. Independent verification from experts can be obtained prior to any specific use. Recipient accepts full responsibility for any consequences associated with use of this information.
