From KRON4
Hello all,

I remain extremely concerned about the network of high speed ferries proposed for the Bay and their impact on wildlife. I do not trust that an EIR (assuming it will actually happen) will address cumulative environmental impacts of this new "highway on the water" on marine wildlife and vegetation. Quiet fast ships are a menace. Slower loud ones (diesel) are too, for different reasons.

Erin

And this one which confirmed death due to ship strike

Necropsy of dead whale in SF Bay confirms ship
strike
